**NEGROES BELIEVED RESPONSIBLE FOR SERIES OF THEFTS**

Determined to check the increasing list of store robberies, often accompanied by violence, which during the past two weeks have caused much alarm among shopkeepers, Inspector Grant, headquarters detectives, and precinct police today set out to apprehend the two colored thieves who last night assaulted Nathan Wolk, conducting a grocery at Sherman avenue and Barry place, beat him into insensibility with a blackjack, snatched \$55 from the cash drawer, and fled.

The police, led by Detectives Warren and Bradley, are working on the theory that the same pair that assaulted Wolk, who lies in Providence Hospital with a deep scalp wound and a broken left wrist, perpetrated two other similar robberies in the past two weeks. The crudity of their weapons and daring qualities of their hold-ups lend credence to this.

**Plane Store Robbed.**  
Henry Eberbach, keeping a piano store at 808 H street northwest, was the first victim. On October 17, a pair of colored men slipped into his place at dusk, struck him on the head with a section of gas pipe and got away with \$150.

The second case was that of George E. Dwyer, assaulted in his grocery at 801 Twenty-first street northwest, last Saturday, beaten with the butt of a revolver and robbed of \$200. Wolk, though temporarily stunned from the blow on his head, shouted for help as the negroes fled up the street. They were seen also by Charles Lewis, living over Wolk's store, and observed to go toward Florida avenue. Policeman Nealon, rushing to the store, called an ambulance for the injured man.
